

## Who is Tover?

**tover**<sup>®</sup>

We are a social impact driven company with a scientific foundation. The products we design are scientifically validated and created in co-design with our end users to ensure the perfect product fit.

With over 10 years of experience and presence in 16 countries, Tover has been improving the quality of thousands of lives and we continue with that mission. Will you join us?

## What is a Tovertafel?

The Tovertafel uses pioneering play technology to provide vital cognitive, physical, social and sensory stimulation for people living with dementia and other cognitive challenges. The interactive games help to slow down degeneration, reduce apathy and create endless moments of joy as well for residents as staff.

The Tovertafel projector can be mounted onto the ceiling above a table or flat surface using a simple click and-ready system. The projected games are interactive and respond to even the smallest of hand movements. They are developed via co-design; together with seniors and care professionals, and designed to suit different stages of dementia and various times of the day, such as family visits or sundowning.

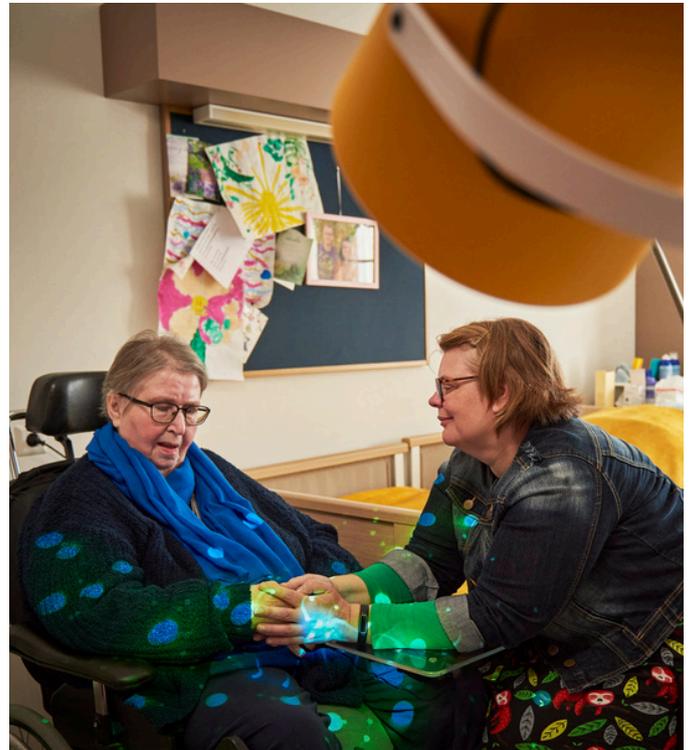

## Backed by Research

We find it essential that everything we create has positive proven effects. That is why research plays a central role in developing and improving our products and services. This stems from our beginnings in 2015, when our CEO and founder Hester Le Riche developed the first Tovertafel as part of her PhD research.

## Proven effects

- Increases social interaction
- Stimulates & increases physical activity
- Improves carer - client relationships
- Prevents / reduces agitated and/or challenging behavior
- Prevents overstimulation and safeguards self esteem
- Improves staff happiness and work pleasure

## Why invest in a Tovertafel?

Investing in a Tovertafel for your facility enhances resident & staff well-being. The Tovertafel reduces agitation and promotes social interaction.

It also improves staff happiness and reduces turnover.

Ultimately, a Tovertafel can elevate your care standards, making your facility more attractive to families seeking the best environment for their loved ones.
